

Getting Started with ELBY

Enhancing Class Skills

- How can I comfort a child who is frustrated during this activity while keeping the group engaged?
- How can I improve my redirection strategies when children become off-task?
- How can I encourage children to make connections between concepts in this activity?
- How can I increase the quality of feedback I provide during this activity?

Tracking Developmental Milestones

- How can I document and track children's progress during this activity?
- What are some ways to track and document language growth during this activity?
- What are some fun and engaging ways to strengthen muscle development during this activity?
- What strategies can I use with this activity to support a group of children who are of mixed ages?

Increasing Engagement

- How can I incorporate children's personal experiences or interests into this activity?
- How can I ensure that every child has an active role in this activity?
- What strategies can I use to encourage children who are hesitant to participate?

Enhancing Family Engagement

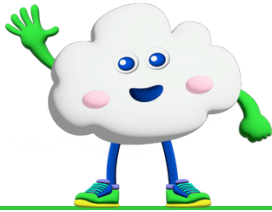

- What are some simple, hands-on activities families can do at home to reinforce classroom learning?
- Provide a summary of this activity for a family newsletter. Translate the summary to (insert parent home language).

Scaffolding for Different Learning Levels

- What are some simple, hands-on activities families can do at home to reinforce classroom learning?
- Provide a summary of this activity for a family newsletter. Translate the summary to (insert parent home language).

Use the E.L.B.Y Framework to ask Elby Better Questions

- | | |
|-----------------|--|
| Evaluate | What specific needs or challenges do I need to address in this lesson? |
| Link | How can I connect this activity to children's interests, cultural backgrounds, or prior knowledge? |
| Build | What modifications or supports can I add to ensure all children can fully participate? |
| Yield | What measurable outcomes or observations should I look for to assess children's learning? |
