

Our Curriculum

Learning Beyond curriculum includes over 4,000 daily activities for infants to Pre-K 4. As a cloud-based curriculum, teachers can select learning topics, activities and navigate between age groups instantly. Each activity can be adjusted to meet the individual child's learning level and goals.

STEAM Focus

STEAM learning engages young children in hands-on exploration and problem-solving, building critical thinking, creativity, collaboration, and communication skills that form the foundation for lifelong learning and adaptability.

Research-Based, Classroom-Tested

The Learning Beyond Paper curriculum is grounded in decades of research across child development, education, and cognitive science, ensuring that every strategy reflects evidence-based practices known to support children's growth and learning across all domains.

21st Century Learning Curriculum

21st Century learning prepares young children with essential skills—critical thinking, creativity, communication, and collaboration—that will equip them to become adaptable, curious, and confident lifelong learners ready to meet the demands of an interconnected, global society.

Integrated Training & Development

Ongoing training and professional learning empower early childhood teachers to confidently apply research-based strategies, deepen their understanding of child development, and continuously refine their practice to meet the diverse needs of every child in their care.

Everything at Your Fingertips!

With all curriculum materials, daily plans, resources, and professional supports easily accessible online, teachers have everything they need at their fingertips to plan, teach, and individualize learning—saving time and allowing them to focus on meaningful interactions with children.

Assessments

Ongoing, embedded assessments allow teachers to observe children in natural play and routines, using real-time insights to individualize instruction, monitor growth, and ensure that every child's learning is supported at just the right level.

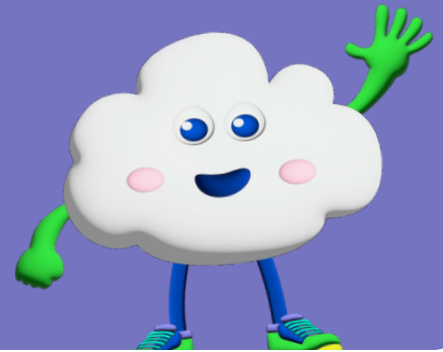

Supporting Growth from Infants to Pre-K 4

Learning Beyond provides thoughtfully designed lessons and activities that inspire teachers and spark children's natural curiosity, offering the flexibility to nurture each child's unique journey of growth, discovery, and success at every stage.

Infants

Infants grow, change, and discover at an incredible pace during their first year. Every child develops on their own timeline, and Learning Beyond gives teachers the tools to meet each baby right where they are. Every moment is filled with rich sensory exploration, gentle routines, and meaningful interactions that spark early development. At the heart of every experience is a caring relationship that nurtures trust, fosters curiosity, and supports each infant's unique journey of growth.

Infants engage in rich experiences across **STEAM**, **Language & Literacy**, **Physical Development**, and **Music & Movement**, with every activity designed to support their growth through exploration, discovery, and meaningful interactions.

Learning Beyond provides thoughtfully designed lessons and activities that inspire teachers and spark children's natural curiosity, offering the flexibility to nurture each child's unique journey of growth, discovery, and success at every stage.

Young Toddler

Between 12 and 24 months, young toddlers are full of energy, eager to move, explore, and express themselves as they take early steps toward independence. Learning Beyond provides teachers with engaging, developmentally appropriate activities that meet toddlers at every stage, while offering clear guidance to support each child's individual growth. With consistent routines, hands-on learning, and relationship-based care, teachers nurture social-emotional skills, language, and growing confidence. Every moment becomes an opportunity to guide discovery, encourage independence, and build strong foundations for learning.

Infants engage in rich experiences across **STEAM**, **Language & Literacy**, **Physical Development**, and **Music & Movement**, with every activity designed to support their growth through exploration, discovery, and meaningful interactions.

Older Toddler

"I'm 2 now!" From 24 to 36 months, older toddlers grow more independent as they explore, try new things, get messy, and even learn how to clean up. Every choice, behavior, and experience becomes a chance to learn — with logical consequences and supportive guidance helping them build confidence. The "I" is strong as toddlers form friendships, strengthen relationships with teachers and caregivers, and develop more advanced language to express their growing world. Learning Beyond empowers teachers with practical ways to scaffold learning, build knowledge through meaningful interactions, and offer choices that help toddlers grow, explore, and thrive.

Preschool

Three-year-olds are full of curiosity, eager to solve problems, try new ideas, and ask "why" at every turn. Learning Beyond helps teachers serve as strong role models, offering guidance, encouragement, and thoughtful questions as children work through challenges and discoveries. As children stay actively engaged, they build skills across all areas of development while gaining confidence as independent learners. With clear quarterly benchmarks, Learning Beyond keeps teachers focused on meaningful, age-appropriate growth while nurturing joyful, curious learners every day.

Infants engage in rich experiences across **STEAM, Language & Literacy, Physical Development, Interactive Reading** and **Cognitive Development**, with every activity designed to support their growth through exploration, discovery, and meaningful interactions.

Pre-Kindergarten

Four-year-olds build on what they've learned, adding new layers of knowledge through hands-on practice, rich experiences, and thoughtful guidance from trusted teachers. As concepts introduced earlier become clearer, children deepen their understanding through repeated exploration, active learning, and meaningful practice. Growing language skills begin to connect to early reading and writing, laying the foundation for kindergarten readiness. With consistent support, scaffolding, and strong relationships, Pre-K children gain confidence, think creatively, and thrive as independent, capable learners in a nurturing and predictable classroom community.

Infants engage in rich experiences across **STEAM, Language & Literacy, Physical Development, Interactive Reading** and **Cognitive Development**, with every activity designed to support their growth through exploration, discovery, and meaningful interactions.
