

Snack Mats

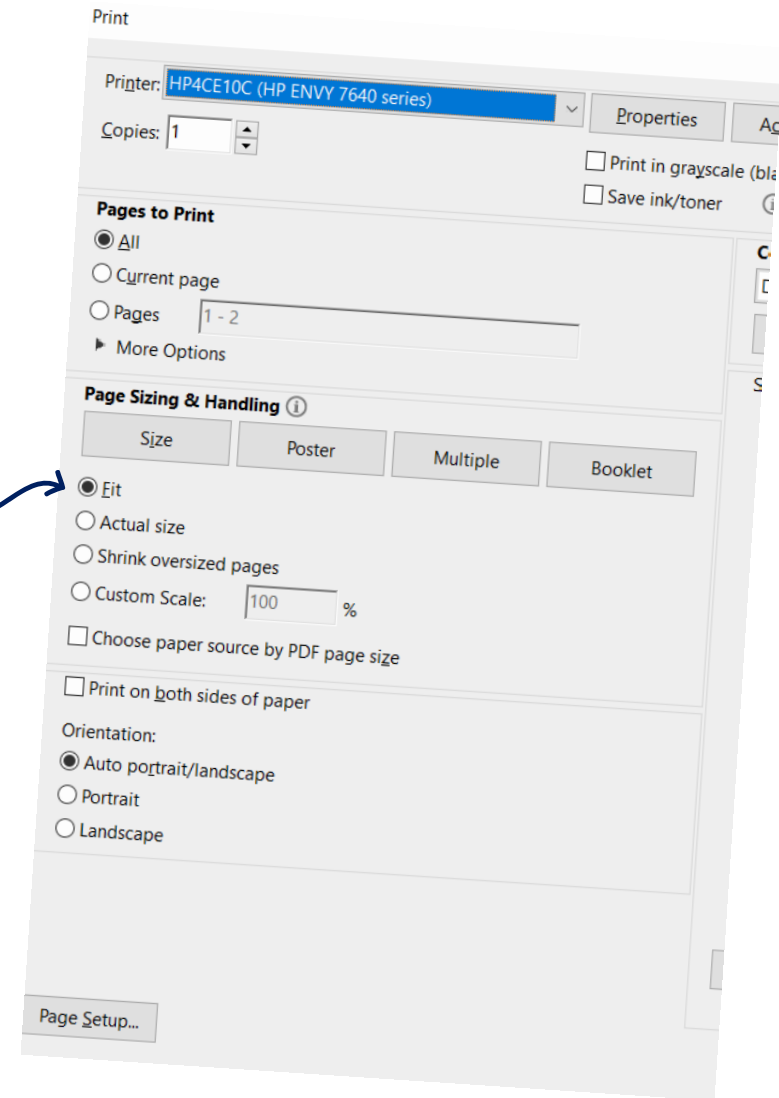

differentiated for a variety of learners

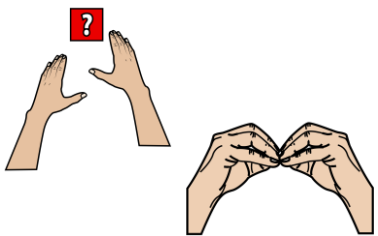

Great to use in ECE, kinder or special needs classrooms.

How to use:

- These snack mats are a great way to promote communication and independence during snack time in the classroom or at home for students who are working on communication skills!
- Simply print and laminate the snack mats and you're ready for snack time!
- They look super cute printed on colored paper or card stock!
- When printing, I suggest clicking "fit" or "fit to page" so it's printed to the entire page of the paper!
